AUTO-RENEWAL OPTION

Lock in this year's plan cost for next year's plan! We'll apply the prior year's standard plan fee when you choose automatic renewal.

IN-OFFICE SAVINGS PLAN TERMS

A savings plan may be activated at any time following payment of the plan fee and will remain in effect for one year following the date of activation. A plan will not be retroactively applied to services performed before a plan's date of activation. In the event of a plan cancellation request, a refund will only be issued if the plan has been active 30 days or less and no benefit-eligible services have been rendered.

DISCOUNT ON CARE: for qualifying services—a 10% discount will apply towards cash or check payments made at the time that services are charged out, or a 7% discount will apply towards credit card or Care Credit payments made at the time that services are charged out. We reserve the right to exclude a discount on special laboratory or manufacturer fees (we will inform beforehand about such items/fees).

A savings plan can't be used: with any form of dental insurance, with any other discounts or promotions, for services for injuries covered under workman's compensation, for services provided in another practice, for hospitalization or hospital charges, or for costs of dental care covered under automobile/medical insurance.

WE ENCOURAGE YOU TO TAKE ADVANTAGE OF YOUR SAVINGS PLAN OVER THE COURSE OF A YEAR AND TO RESERVE THE NECESSARY APPOINTMENTS FOR ELIGIBLE CARE AHEAD OF TIME. We will do our best to help you take advantage of plan benefits. However, no special appointment arrangements or changes in CCFDentistry business hours will be made to accommodate the utilization of benefits prior to their expiration.
